

RenameFileExt

Revision History

Copyright © 2014 [Stefan Bodingh](#). All rights reserved.

Welcome to RenameFileExt.

1.0.0 (2014-02-08)

First release.

About:

RenameFileExt is written by Stefan Bodingh.

RenameFileExt is free and comes with no support. On suggestions how to improve please contact [Stefan Bodingh](#).

If you find errors, please send the source file that caused the error.

Key features:

RenameFileExt is a bulk file renamer. It can replace the text string ".mkv" with the text string ".avi" for all files in a folder or group of subfolders.

Select the folder which has all the files who's extension you would like to change.
